self-taught in front-end web development

### PROFILE INFO

I'm a novice Front-end developer and I want to improve my skills and abilities to help a company reach its goals. I can work with teammates and communicate with them easily. communication, time management, team working, and leadership is my main social skills. Also, I know HTML5; CSS3; Basics of Javascript; React; Responsive Design; Bootstrap; Git; Github. I'm self-taught web developer,I use google,tech-forums and other sources to find everything what I need to learn,so googling is a part of my main skills too.Check my GitHub account and see live projects here.I tried myself as IT Support intern and I have already learned as more important IT aspects as I could.
